**The History of Burke and Hare,
And of the Resurrectionist Times**
George MacGregor

From the preface: ".....of all the criminal events that have occurred in Scotland, few have excited so deep, widespread, and lasting an interest as those which took place during what have been called the Resurrectionist Times, and notably, the dreadful series of murders perpetrated in the name of anatomical science by Burke and Hare. In the preparation of this work the Author has had a double purpose before him. He has sought not only to record faithfully the lives and crimes of Burke and Hare, and their two female associates, but also to present a general view of the Resurrectionist movement from its earliest inception until the passing of the Anatomy Act in 1832, when the violation of the sepulchres of the dead for scientific purposes was rendered unnecessary, and absolutely inexcusable."
